Baby vegetables hit French cuisines in the 60's for their novelty and then made their way to the retail scene in the mid 80's. Today, bite-sized vegetables are widely showcased for their miniature size and flavor but also for a healthy snacking convenience.

Because of their popularity, Harvest Sensations sources baby squashes and vegetables from a variety of global sources. Currently, we are sourcing excellent supplies of baby squashes from Baja California with distribution from our Los Angeles facility. Book now as they move quickly.
